ABOUT US

We are an association supporting women's digital empowerment with specific projects.

The founders

/Darya Majidi

“Courage transforms
ordinary people into
heroes”.

/Gabriella Campanile

“Free you willingness and convert dream into vision and your wishes into passion”.

OUR VALUES

Expertise, heart and boldness are strategic levers to overcome inequalities and pursue equity, freedom, respect and recognition of uniqueness regardless of gender.

We strongly believe in inclusion and sisterhood which are at the core of our values, aiming to achieve equity through a new true social justice.

Our projects

WHAT WE DO

/UN Agenda 2030

We focus on gender equity, i.e. the 5th goal of Agenda 2030 , by developing awareness in women and in the society. We consider technologies as strategic levers for personal and professional growth.

/Representation

We are active players, at International Institutions and Organisations, addressing gender equity and digital transformation issues.

/Network

Through our extended networking activity, we promote women's empowerment by supporting innovation processes and promoting a technological and digital culture.

/Culture

We strongly promote an inclusive cultural model aimed at overcoming gender stereotypes.

/Education

We promote strategies and actions to reduce cultural/social prejudices and stereotypes that preclude women from accessing educational and professional opportunities in the hi-tech world and support women's leadership skills through ad hoc actions/initiatives.

/Solidarity

We support women's causes to expedite and close the gender gap.

OUR CONCRETE GOAL

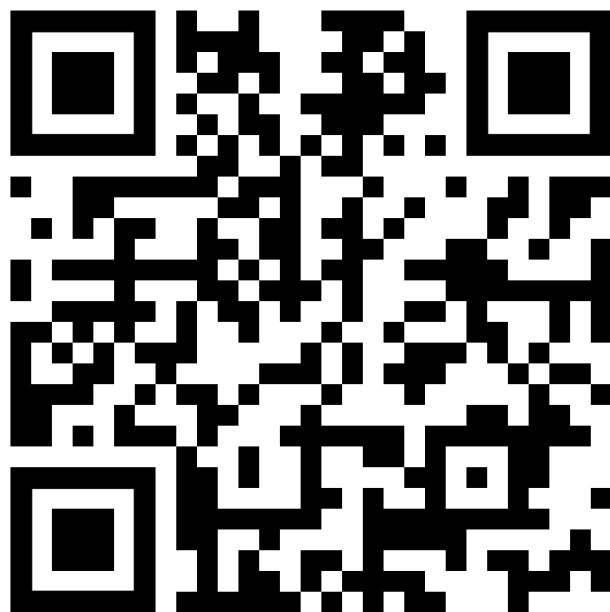

Increase and strengthen women's representation and qualified employment in order to guarantee equal rights and representation in the labour market and society.

OUR PURPOSE

Empower women in leadership roles and face new global challenges; convert technology as a strategic lever and build an inclusive and sustainable future with technology.
